PEOPLE LIVING WITH DISABILITIES GO TREKKING IN NEW MEXICO BROUGHT TO YOU IN PART BY THE CHRISTOPHER AND DANA REEVE FOUNDATION

ADAPT OVERCOME AND ENJOY THE BEAUTIFUL LAND OF ENCHANTMENT

With the use of highly sophisticated off-road wheelchair technology and customized utility vehicles, individuals with disabilities gain access to wonderfully beautiful outdoor opportunities that are truly life changing. Much of New Mexico's renowned mountain trails and river paths have been inaccessible to people living with disabilities, especially for those dependant on the use of wheelchairs. Now, with developments in technology combined with support from non-profit service organizations and foundations, we are able create access to these outdoor opportunities that are so important to one's quality of life. Creating access to hundreds of thousands of trail miles is great progress towards ensuring people with disabilities have the opportunity to enjoy their public lands and our national treasures.

Activity planning is currently underway for the 2016 summer, fall and winter. Events and schedules are posted to the organizations web site www.gounlimited.org

Global Opportunities Unlimited was founded in 2005 and is dedicated to providing adaptive sports, recreation and outdoor adventure opportunities. Programming, referred to as GO Unlimited, follows three simple parameters, Adapt, Overcome, and Succeed.
